- Indoors: numbers 1-2-3-4-5-6-8-9-10-11-12-13-14-15-16-17-18-19-20-21-22-23-24-25-26-27-28-29-30-31-32-33-34-34-35-36-37-38-39-40-41-42-43-44-45-46-47-48-49-50-52-52a-52b-52c-53-53a-61-65.
- Outdoors-Indoors: numbers 75-76-77-79-81-82-86-87-125-white.
- Indoors-outdoors. Pearl Silver, Aluminium Silver, Gold, and Bronze.

### Technical Data:

**DENSITY:** Variable between 1.2 and  $1.5 \pm 0.05$  g/cm<sup>3</sup>

**PACKAGING:** 250grs standard

880grs and 220grs for metallic/pearlescent.

**LIFE SPAN IN CONTAINER:** Approximately 16 months in stable environmental conditions +5°C (min.) and +32°C (max.) without opening the tin. Avoid frost and high temperatures.

#### PREVIOUS PREPARATIONS and MIX CONDITIONS:

Homogenise the Dye/Toner with the selected material following the instructions on the Colour Chart or on the Data Sheets, i.e. manually or mechanically, depending on the specific conditions of each decorative material. To obtain degraded tones or colour mixes, carry out the operation by weighting the Dyes/Toners, as they contain 250 g of tint.

Accuracy between different batches cannot be guaranteed.

**THINNER:** Ready-to-use product.

**CLEANING OF TOOLS:** Water and soap.
